Four Local Young Men Hurt in Auto Accident on Rte. 173 Wed.

Shock of Collision Prevents Knowledge of How the Wreck Occured

A collision involving two automobiles at the intersection of route 173 and Deep Lake road at 1 a. m. Wednesday resulted in serious injuries to four young men of Antioch.

The injured include Robert Strang, 21, son of Mr. and Mrs. L. G. Strang and commander of the local post of Veterans of Foreign Wars; Richard Eckert, 21, of Channel Lake; William Mongan, 24, son of Mrs. Earle Gibbs; and Robert Risch, 18, son of Mr. and Mrs. Emil Risch.

Strang suffered a fractured vertebrae and many cuts and bruises which are expected to keep him in the hospital for about three weeks. Mongan was less severely injured, suffering numerous cuts on the face and head and is expected to be released from the hospital in a few days. Eckert was also badly cut and is expected to be hospitalized for two weeks or more.

Risch, who was driving one of the cars was badly cut on the arm and the extent of his injuries have not yet been ascertained, however, it is believed that the injury to his arm is the major damage.

None of the young men know exactly how the accident happened because of shock sustained in the crash. Risch is believed to have been traveling north on Deep Lake road and the other three boys were coming home from their work in Waukegan, where they are employed on the night shift at Johnson Motors factory.

It is believed that the fact that the Strang car was a new one, with safety glass and all steel body is partly responsible for saving the lives of the passengers.

The Antioch Rescue squad was called to the scene of the accident and took the injured to Waukegan hospitals.

Parking Meters Called Success in Providing Parking Places for All

Nine hundred and forty persons paid parking fines up to Sept. 1 since parking meters were installed in Antioch, the report of the village treasurer this week showed.

Of the total \$22 turned their tickets in to Elmer Brook who received \$162 from the village for his trouble and the abuse from defendants that went with it. Fifty-nine dollars or 118 fines were paid to Chief Fred Peterson who turned the money directly into the treasury.

President George Bartlett informed the board that Peterson's action in not turning the money over to Magistrate Brook was not according to law regardless of the justification of his procedure.

One trustee said that a woman risked a contempt of court charge by tearing up a ticket in the face of the magistrate.

The board patted themselves on the back by agreeing that the installation of parking meters was the best thing they have ever done in clearing the downtown street of traffic jams and in providing places for visitors and shoppers to park.

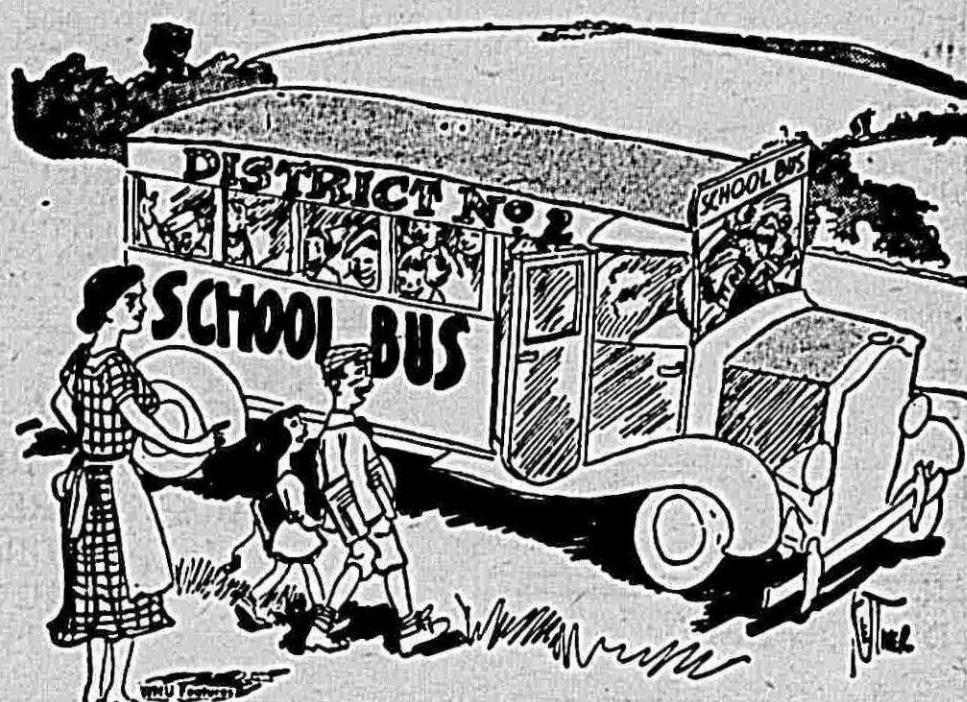

Morgan to Head Lakeview Subdn. Assn. For Year

Jerry Morgan will act as president of the Lakeview subdivision association for the coming year according to a report of the annual meeting submitted this week. The annual meeting was held August 31. Other officers include Mrs. J. W. Woods, secretary-treasurer; Mr. John Wathier, vice president; and Joseph Holakovsky, Jr., W. W. Woods, and Joseph Geddes, members of the committee on expenditures and activities.

The organization of the Lake Marie subdivision has as its aim maintenance of the community property of the subdivision, upkeep of subdivision roads and other worthwhile projects in improvement and policing of the subdivision.

Officers of last year were complimented of the fine work performed during the year at the meeting. Harry Miller was president and Mrs. Harry Beckman secretary-treasurer during the past year.

Schools Open

Garbage Dump Closed Forcing Village to Use Own Land East of Soo

The garbage dump southeast of the village on the LaPlant land was closed Tuesday on orders of William Rosing, township health commissioner.

The action presented a problem not only to the village but to the entire area which has been using the ground south of Rte. 173 as a convenient easily accessible dumping ground.

Rosing's order followed a complaint filed in a petition by people residing in the region of the dumping grounds who said that the place is infested with rats and that the rodents and smoke from burning refuse are dangerous to health and are a nuisance.

The complaint of the people was backed by local physicians who said that there was danger of the spread of disease which might reach epidemic stage.

The village board last evening decided to use its own land east of the high school and east of the Soo railroad line. A problem is presented in gaining access to the land. A crossing from lot 10 was said to have been removed by the railroad which has not yet given the village permission to replace it.

Because of the great need for the crossing the village is now hopeful that the railroad will change its position which in the last two years has been that of opposition.

Disappointment was plainly manifest Tuesday by nearly 25 truckmen who were turned back from the dumping grounds by township officials. One driver said the nearest dumping grounds now available is Volo.

Chain O' Lakes Gaffer Dies of Heart Attack

Stricken with a heart attack after playing two holes of golf at the Chain O' Lakes course Saturday, Joseph F. Moreau, 56, of 1021 N. Mayfield ave., Chicago, died while being taken home.

Moreau, who has a summer cottage at Lakeview park, Round Lake, was playing with his brothers, A. H. Moreau and E. J. Moreau when he complained of pains in his chest.

His brothers were rushing him home when he slumped over in the car. A doctor from Round Lake was summoned and he and the Round Lake Rescue squad worked an hour in vain effort to revive him.

The inquest was held at the Grayslake Strang funeral home Tuesday afternoon and the body was taken to Chicago for burial.

Board Gives Permits for Three New Residences

Three building permits were authorized by the village board last evening and three new houses will soon be under construction.

Frank Spangard will construct a 28x24 All-American pre-fabricated house in Nabor's subdivision with a 14x20 addition, all to cost approximately \$6,000.

Henry Quadenfeld will move a partly built house to the north part of the village next to the Charles Anderson residence, and Edward Sorenson will erect a nice five-room bungalow on Parkway ave., at a cost of \$8,000.

A. F. M. Band to Play Sunday at Village Park Through Union's Fund

Residents and visitors at the lake region will be entertained Sunday afternoon, Sept. 7, by a musical program played by the concert band of Local No. 284 of the American Federation of Musicians.

The concert, one of a series of ten to be given in Lake county by the union, will begin at 3 p. m. when Percy Snow, director of the band, gives the downbeat on the opening number, the "London Hippodrome March."

Other selections featured in the program will be the "To Arms" overture; "American Patrol"; "Hungarian Fantasia"; the "Old Comrades" march; "Invitation to the Waltz"; "El Caballero"; the "Great Little Army," a march, and the "Libertyville Municipal Band" march, which was composed by Mr. Snow.

The series of ten concerts is made possible by the Waukegan union's share of the Petrillo Recording and Transcription fund. Amounting to \$3,400, the fund is to be used to provide entertainment by local union musicians for citizens of the areas in which the local unions are organized.

The concert sponsored by the Lions club will be given at the village park. Without an adult band of its own, Antioch does not often have the opportunity of hearing an organization as good as this one.

Labor Day Quiet With Less Traffic Than Is Usually Seen at Holiday

Sunday and Labor Day always the final fling of vacationers before the opening of school and the return to winter residences from summer homes was a rather quiet holiday in Antioch and vicinity.

Whether or not it was the fear of crowded conditions and accidents that kept many off the highways is not known, but there was far less travel through this area this year than last in spite of the greater number of cars. All resorts had a good business, however.

It was too cool to attract many persons from the city, for the day, Monday the showers having modified the temperatures.

Thousands made trips to the Lotus beds on Grass lake, but the lotus blossoms are not so good this year. Only one major accident, a drowning, at Long Lake, occurred over the weekend and the traffic accidents were fewer than the previous Sundays.

Ten years ago it could be said that there was a general exodus from summer cottages to the city on Labor Day, but the summer cottages have for the most part been turned into year round homes now because of the housing shortage.

Loon Lake Groups Have Beach Picnic on Aug. 31

East Loon Lake Shores club in conjunction with the Women's club held a picnic Sunday, Aug. 31 on the beach of Loon Lake.

D. H. Minto of Deep Lake road is president of the club and Mrs. Robert Brown of Chicago is president of the Women's club. The two expressed their appreciation to the several businessmen for making the party a success.

Antioch High to Play Eight-Game Football Schedule This Season

An eight-game schedule with five of them conference contests is ahead for the Antioch Township High school football team which opens its season here Friday, Sept. 12 with Zion as opponents.

Three non-conference games will lead up to the conference season. Besides the opener with Zion the Sequoits will play Warren at Gurnee at 3:30 p. m. Friday, Sept. 19, and Grayslake here Friday, Sept. 26.

Bensenville will come here for the conference opener Friday, Oct. 3. This game will be played under the lights starting at 7:30. The next game will be with Palatine there at 2:30 p. m. Saturday, Oct. 11.

Last Game Here Oct. 17

Northbrook will come here for the last conference home game on Friday, Oct. 17. This will be a night game.

The Sequoits will play Grant Township High at Fox Lake under the lights Saturday, Oct. 25, and will end the season at Barrington Saturday afternoon, Nov. 1.

The Antioch squad dropped to one practice session a day with the opening of school this week. Coach Kruzan is still pounding away at fundamentals and hasn't begun to consider his lineup for the first game with Zion.

His present worry is over his line which averages but 160 pounds.

"We have a fast enough back field if we had enough line protection," he said.

Zion Won Last Year

Last year Zion beat Antioch 14 to 13. Just what Zion's new coach Hankerson has this year Coach Kruzan doesn't know, although he is aware that Zion is a larger school and has more available material. It will be a testing period for both the Zion and Antioch squads for it will be the first game for both schools.

Rose and Kelton will serve as officials for this game.

The Antioch freshmen and sophomores will form a team and will play a schedule this fall. The schedule has not yet been made public.

Antioch Schools Have Slight Increase This Year in Enrollment

Classes Start on Wednesday After Teachers Attend Institute

Antioch's schools opened Wednesday with slight increases in enrollment which will be about the same for the high school as for the grade school.

Principal Richard Whitacre said that 61 pupils rode the bus, an increase of 15 over last year and that he expects the total enrollment to reach 282, as compared to 275 last year. Classes are all large, but are being well handled. A few late enrollments are expected.

The Antioch Township High school classes started out smoothly yesterday Principal T. R. Birkhead said. There was no registration Wednesday, the day being given over to the 254 who had previously signed up in arranging their schedules. Today the latecomers were enrolled and it is expected that the total will be 275 or 280.

The teachers attended institute in Waukegan Tuesday and during the evening held their own meeting in Antioch.

"There is no overcrowding this year especially in the English classes because of the addition of one member to the faculty," Birkhead said.

Village Board Will Attend Convention of Municipal League at Springfield, Ill.

The whole village board of trustees and associated officials will attend the annual convention of the Illinois Municipal League at Springfield Oct. 6, 7, and 8.

Four double rooms and a single room (the treasurer is a woman) were ordered reserved at one of Springfield's best hotels and the group expects to spend three days of enjoyable and profitable attendance at the conference in which the representatives of cities and villages talk over their problems.

On a show of hands President George Bartlett, Trustees Frank D. Fowles, Arthur Rosenfeld, Walter Scott, James Mapletorpe, Winsor Dalgaard, and Merrill Cunningham; Deputy Clerk Laurel Fowles and Treasurer Martha Hunter all signified their intention of going. "I've never missed yet," said Rosenfeld.

Referendum on \$20,000 Bond Issue to Finance Fire Department's New Building for Which Bids on Modified Plans Will Be Opened on Oct. 1

Two Earlier Bids are Rejected as Being Too High And New Bids May Be on Separate Parts Of Building Construction

Voters of the village will be asked to decide whether or not a bond issue of \$20,000 shall be approved so that a new fire department building can be constructed.

The village board last evening instructed George McGaughey, village attorney, to draw up an ordinance calling for the election in about a month.

The board first rejected the bids of \$28,000 and \$38,000 recently submitted for constructing the building, and then called for new bids on modified plans on Oct. 1.

Consultant Engineer Leonard J. Latz proposed that a cement coated block exterior be used until later when a brick veneer can be added. A different type of beam will also be used in cutting down costs.

Bidding this time will be different in that the contractor can bid on the whole job or on just parts of the job. Latz said that a small contractor could bid on the excavation work, the foundation, the walls, or the beams and roofing, whichever he is prepared to do. Local bidders there-by can be interested.

Only Two Bids

The fact that there were only two bids before and both of them were much higher than the expected \$22,000 bid that the board had anticipated, left no doubt as to the difficulty of getting contractors to bid on the job for a reasonable sum if at all.

Local contractors are not prepared to do the whole job but if they could do parts of it, it is believed that their work would cut down the cost considerably.

The board had just decided on the plan to seek new bids when Attorney McGaughey reminded it that perhaps bidding would be more assured if the contractors knew the village had the money.

It was then that the board awoke to the fact that its procedure should be reversed and that the bonds should be approved by the citizens before any contract could be let.

One thing that kept this from their attention before was the fact that the fire department and the city has a considerable portion of the money that they expected to spend on the building.

Costs Higher Than Expected

Increased costs showed them they did not have enough and at this point President George Bartlett spoke his mind on the matter much as the others had been thinking, specifically, that the cost of the building should be borne by the village and not by the fire department.

"The money belonging to the fire department shouldn't be used for the building at all," said Bartlett. "It should be used by them in fitting up their recreation room and other fire department equipment they need."

Bartlett said that there is a possibility that unexpected expense which is common to building construction nowadays may make a need for some of the money the firemen had intended to use.

President Bartlett said that this is not an advantageous time to build but in view of the fact that the department is getting a new truck and there is no place to house it, and building is absolutely necessary and there is no apparent alternative.

President's Approval Given

His conservative attitude in the village finances and his willingness to float the bond issue lends much weight to the necessity of approval of the bond issue.

The fire department was represented at the meeting by Clarence Shultis and Jim McMillen who agreed with the board in its unanimous opinion that sufficient bonds should be issued to see the building constructed in a proper manner.

They agreed with Bartlett that the building should not be cheapened too much to meet the expected price, and that it should be one the community and the firemen themselves could be proud of. The surface, they agreed, could be finished with brick later at a time when bricklayers will be more readily available.

It is expected that as soon as the ordinance is completed, a board meeting will be called and the date set for the referendum. Ten days after the notice receives final publication the election will be held.

They Made It Legal Anyway

Because of a delay in the publishing of the Village appropriation ordinance, it became necessary to thread a little red tape at the village board last evening to make the tax levy ordinance legal.

First the board rescinded the tax levy ordinance as adopted and adopted it again as of a later date because a certain period of time must elapse between the appropriation ordinance and the tax levy ordinance.

A Look At Oil

As the summer vacation season moves to a close, the achievement of the oil industry in meeting an unprecedented demand for gasoline and other oil products can be seen in its proper light.

There have been minor, localized shortages of gas, largely as a result of transportation difficulties—but no one has been seriously inconvenienced, much less left indefinitely with a dry tank. The oil industry's vast productive and distributive resources have been strained but they have not cracked. The production line which brings us our petroleum—from well to refinery to tank car or pipeline and finally to the service station—has stood up under the impact of a demand which is greater than in wartime, and which was largely unexpected.

There are various reasons for this. One is the intense competition within the industry, with a legion of companies seeking consumer favor. Another has been the industry's emphasis on research, with resulting improvements in refinery methods, and on maximum production of usable oil products from crude. Another has been the typically American spirit of meeting a challenge with every conceivable resource.

There are still tight spots in the oil picture, and they will remain for months to come. But the big job is being done with superlative efficiency.

The Bureaucrat in the Saddle

The American idea of government being a servant rather than a master of the people, cannot be fully appreciated until one has been forced to approach a public official or a public agency in an attitude of supplication. Immediately the position of private citizen and public servant undergoes a chilling reversal, particularly if the matter involves the economic welfare of the private citizen.

Nowadays it is easy to illustrate how quickly the private citizen can be reduced to the status of a favor-seeking subject. For example, in a little Oregon community the people decided to vote into existence a Public Utility District. They had been told that that was the best way of getting the greatest benefit from the government's Bonneville power dam on the Columbia River. As a result, the local community went into debt to buy out the local power company. A tax-free political organization was set up to dispense electric power with absolute authority over rates and unhindered by any form of state regulation. The PUD threatened heavy penalties for connection of energy-using appliances without permission. For example, one home bought a new electric water heater which the owner was not allowed to connect for nearly two years. There was no recourse to utility commissions or to any regulatory agency such as would have been the case with a private electric company.

It is hard to realize except through personal ex-

perience, even of the mildest nature, the helplessness of the individual when he is pitted against uncontrolled political authority. It is a kind of monopoly that crushes the human soul. Ultimately, as the plight of suffering millions the world over testifies, it becomes the difference between life and death—and it is a perilously short step from one to the other.

Coal—"Made in America"

The constant labor conflicts which have disturbed the soft coal industry may have convinced part of the public that the American mines are something of a relic from a dark age, untouched by the march of progress.

The truth is that our mines are far and away the most advanced in the world. Even before the British mines were socialized, their American counterparts were much more productive. Since socialization, British production has gone down, and the American advantage has increased. This is largely the result of an extensive mechanization program, covering many years, which cost the mine owners tens of millions of dollars.

One consequence of the high efficiency of coal mining in the United States has been the record wages now earned by mine workers—wages substantially higher than those paid in any other comparable industry. Another consequence has been an abundance of coal. The only coal shortages in this country have been caused by strikes, and have been rapidly made up once work was resumed.

As a result of the war, followed by sharply reduced production in the European and British coal mines, much of the world is now dependent on American coal for industrial and social rehabilitation. Coal—"Made in America"—has thus become an instrument of world stabilization. Cold people, like hungry people, are ripe for dictators and men on white horses. So, our coal exports may help to prevent great national tragedies in Europe.

An Effective Force

If anyone believes that retailers are principally concerned with how to dredge more dollars out of price-conscious consumers, he should read the reports of recent conventions and meetings attended by leaders in the merchandising field.

The most intense attention has been given to ways and means of preventing further price increases, and to reducing prices whenever possible. Equal attention has been given to the possibility of improving the quality of goods—which, if achieved, is in itself a form of price control.

In the day by day course of business, retailers have been working closely with manufacturers on these related problems of price and quality. The objective is to reduce costs in every possible direction and to pass the savings on to the buyer.

It is difficult for the individual consumer to measure the results of these undertakings. All he knows is that the cost of many articles has continued to go up, and the cost of relatively few articles has come down. But it is unquestionably true that, had it not been for the work of the retailers, prices would have been substantially higher than they actually are. And this is a very positive achievement in the interest of the public pocket-book.

Mr. and Mrs. Glen Pacey and family, guests of Mr. and Mrs. Ervin Rasch, Mr. R. J. Austin is spending a week at Eagle River, Wis.

On Friday the McGuire family were visited by W. B. Geldert and daughter, Ruth, of Chicago, and Mr. Geldert's brother and daughter, Mrs. Kenny from Cambridge, Mass. Mr. Dave Bassett, who has a summer home at Alden, Ill., has given the Eastern visitors many interesting trips in this area.

Mr. and Mrs. R. C. Shottliff, Mrs. Stanford Heide and daughter, and Mrs. John Heide, of Kenosha, spent Monday afternoon at Lake Geneva.

Mr. and Mrs. Ernest Otto and Richard, were Racine callers Wednesday and visited Mr. and Mrs. Gregory Shilke, also Mr. and Mrs. Kenneth Kemper.

Mr. and Mrs. Ernest Otto and Richard, were in Kenosha Thursday and called on Mr. and Mrs. Ed Roberts at Somers and Mr. and Mrs. George Bein at Bristol.

Little Linda Oetting is under quarantine for Rubeola Measles. Mrs. Albert Miller and children, Mrs. Herman Frank, and Beverly called on Mrs. Bertha Harm at the Woodstock hospital Friday.

Mr. and Mrs. Herman Frank and Richard attended Venetian night at Lake Geneva Thursday night. Beverly Frank returned home with them.

after a few weeks vacation with Mr. and Mrs. Henry Harm.

The Young People's first fall meeting is to be conducted on Sunday, Sept. 14, at 8 p. m.

The instruction of children to be confirmed begins Monday, Sept. 8, at 4:15.

Rev. and Mrs. R. P. Otto and family spent Sunday at Wauwatosa with Rev. and Mrs. C. Otto.

Mr. and Mrs. George Higgins accompanied Mr. and Mrs. Charles Curtis, of Kenosha, to Waupaca, Wis. for the weekend.

Mrs. Ella Hoffman spent Sunday at the George Giffords at Genoa City.

Mrs. George Higgins entertained Wednesday the Circle Three club of Genoa City Congregational church.

Mr. and Mrs. Clarence Gifford, of Chicago, spent Thursday evening with Mr. and Mrs. George Higgins.

The Official Board of the Community church will meet for a business session Friday evening this week.

Rev. Dixon was called to Montella, Wis., last week to officiate at the funeral services for a former parishioner, Mrs. Dixon accompanied him and they returned Saturday afternoon.

There are many here who will be interested to know that Mrs. Wilhelmina Witt, widow of Herman Witt, who passed away a year or so ago at their home in Waukegan, also passed away at a Waukegan hospital last week. She had been a member of the local Royal Neighbor Camp for some years. She leaves two sons, Edwin and Russell.

Mr. and Mrs. Oliver Kirby and sons of Arlington, Va., and Mr. and Mrs. Edgar Kerr and Jack, of Bloomington, Ill., also George Mitchell, of Chicago, were guests of the Wm. Weber family and Mrs. Florence Kerr over Labor Day.

Mr. and Mrs. Wm. Schwenk, of Decatur, and Mr. and Mrs. Howard Doyle, of Chicago, were dinner guests of Mr. and Mrs. Charles Hamlin last Sunday.

Mr. and Mrs. Traver Ellis and sons, of Belvidere, spent a few days last week with Mrs. Ellis' parents, Mr. and Mrs. B. J. Hooper at their home. The Sunday school picnic held at Fox River park on Tuesday last week was attended by more than seventy pupils, parents and teachers, who spent a most delightful day at the park.

Mr. and Mrs. Chas. Bennecke, Jr., and daughter, and Mrs. McLaren, who have been guests of Mrs. Riney, have returned to their home in Florida after a pleasant visit here. Mrs. Bennecke and baby have been here the greater part of the summer.

Mrs. Stella Pedersen spent the past week in Chicago visiting her sister and other relatives.

Mr. and Mrs. Gordon Blumenschein and children returned to So. Bend, Ind., on Monday after a pleasant visit with their parents, the Walter Schneider and Clarence Blumenschein families.

The Pinochle club met Tuesday last week with Mrs. Ireland and daughter at Lone Oak Inn for pot luck dinner at 12:30 and games of pinochle during the afternoon. The club will enjoy a vacation for a few weeks now.

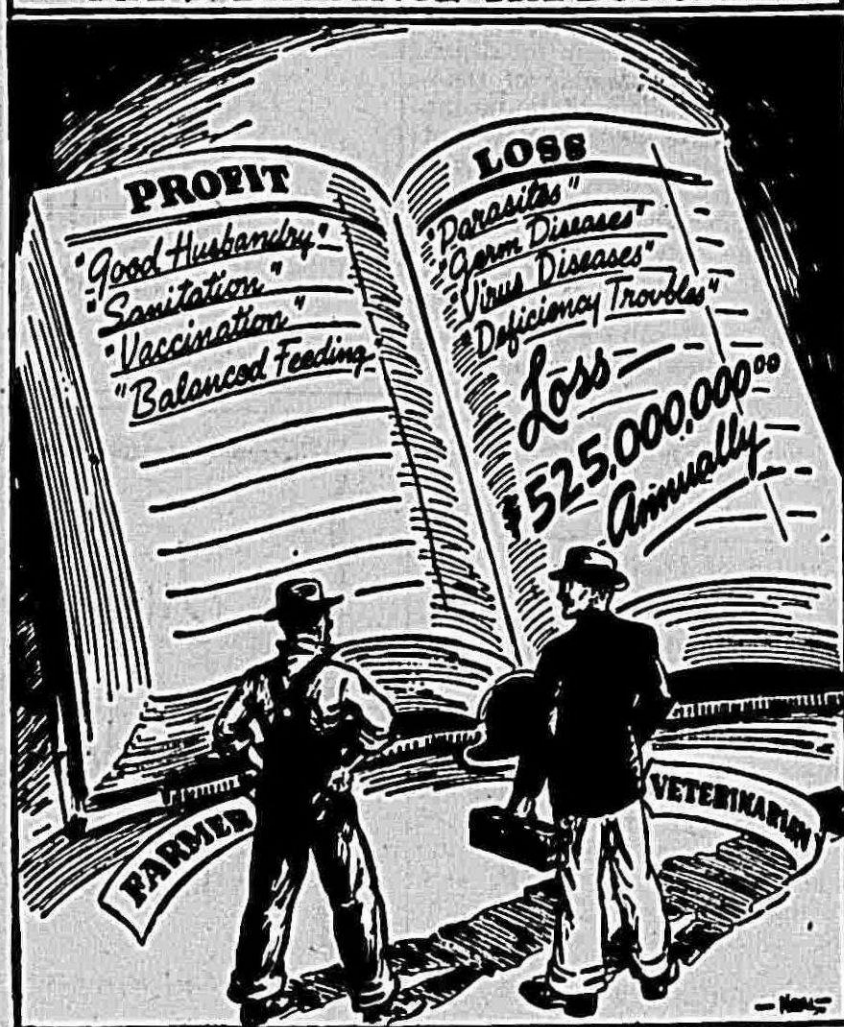

Robert Galt, who has been employed at the Weber Duck farm during the summer, left the first of the week for his home at Monticello, where he will go into business with his father there.

Mr. and Mrs. Charles Kelly accompanied by their sister-in-law, Mrs. Effie Kelly, of Racine, are spending the week with Mrs. Kelly's sister, at Menomonee, Mich.

Mr. and Mrs. Everett Lucas, of Waukegan, and Mr. and Mrs. George Walker, of Libertyville, spent Sunday with their parents, the Wm. Walkers, east of the village.

LET'S BALANCE THE BUDGET

HEALTH HINTS for LIVESTOCK

PREPARED BY AMERICAN FOUNDATION FOR ANIMAL HEALTH

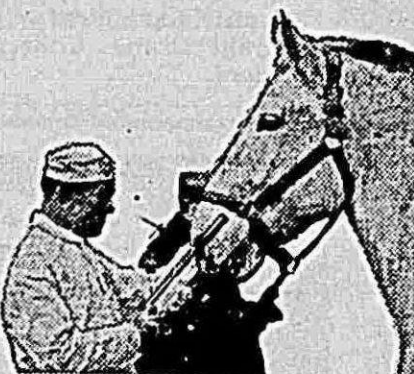

HORSES ENTITLED TO BETTER CARE

Most people agree that the horse is the most intelligent animal on the farm—but unfortunately, evidence also shows that it is the most neglected animal in nine cases out of ten.

Take the matter of diet, for example. The horse has an extremely small stomach. Therefore, it needs a better-balanced, more easily-handled diet than any other farm animal. Yet few horses, today, are given that type of ration. Horses need minerals, such as calcium and phosphorus. They should also be given alfalfa, for the proteins, minerals and vitamins which are in this rich food. Because of the small size of their stomachs, horses cannot store food and water for long periods. They should be fed and watered frequently—otherwise colic and indigestion may develop—or serious impactions.

The average farm horse is also an easy victim of internal parasites. This is especially true of bots and strongyle worms. Bots, which are larvae of bot flies, fasten themselves to the lining of the horse's stomach during the winter months. They impair the animal's health, often puncture the stomach, and can make a poor animal out of a former good work horse. If they are allowed to go unchecked, these bots can be eradicated by proper medication during winter months, the best plan being for farmers of a locality to band together and have the

medication during winter months, the best plan being for farmers of a locality to band together and have the

A veterinarian administering a bot capsule

veterinarian treat all horses at one time, thus eliminating the pests from the area for the season.

In regions where sleeping sickness has occurred, horse owners should also have their animals immunized against this disease before the insect season begins. Such immunization is usually good for a year, and confers a high degree of protection.

With horsepower doubly-valuable this year, proper care of farm horses is not only a matter of humanitarianism. It is good business as well.

Hamson families, who have been living on the north side of Cedar Lake all summer, are moving back to Chicago.

Mr. and Mrs. Ostrum and Mr. and Mrs. Dellin, of Rockford, were guests of Mr. and Mrs. Wm. Walker last Sunday. Mrs. Walker's aunt, Mrs. Bonnevier, of Chicago, is their house guest this week.

Mrs. C. N. Dunbar, of Petite Lake Highlands, has had her brother's wife, Mrs. J. P. Holmes, of Eldorado, Ark., as her house guest the past two weeks.

Mr. and Mrs. Neil Riedel and daughters visited Mrs. Riedel's sister and family in So. Michigan over the Labor Day holiday and Mrs. Riedel's nephew, who had spent the week here, returned home.

The Royal Neighbor Officers club held a business meeting with Mrs. Walter Selter at her home at Grass Lake on Tuesday afternoon this week.

Vital Role

Trees play a vital role in the economic, social and political life of the nation. Among the benefits are controlling stream flow, protection of animals, supplying fruit and lumber and fire wood, sheltering homesteads, the increase of bird life, and making the outdoors more beautiful and enjoyable.

Busy Port

On an average day, 25 or 30 ocean vessels clear the port of New York. Each year, some 10,000 vessels load and unload their cargoes in the port. To berth them, 1,800 piers and wharves have been built by private interests, municipalities and government agencies. Twelve major railroads bring cargoes to the port from all parts of the nation.

Aid to Prisoners

Prison work of the Salvation Army in this country had its birth in a small "prison-gate" home in Hartford, Conn., in 1885, where newly-released prisoners were helped to readjust themselves to normal life and to take a useful and productive place in society. From these humble beginnings, the Salvation Army has developed an extensive program of year-round work inside prison walls. In addition, the Salvation Army undertakes to care for the less fortunate families of prisoners.

Improves Herd

Better producing dairy herds can be achieved by breeding all milk cows to good dairy bulls, and then saving and raising the heifers as herd replacements.

Avoids Cannibalism

Chicks are not likely to be cannibalistic, if they have plenty of brooder or range space, enough fresh air at the right temperature and the right kind of daily ration. Under these conditions, they ordinarily will be so busy they will not be disposed to pick at one another.

Uncle Sam Says

Benjamin Franklin's devotion to thrift is as well known to my nieces and nephews as his love of liberty. The two go hand in hand because with wise savings you can give yourself the freedom to achieve many personal goals for yourself and family. We remember Franklin's advice that a penny saved is a penny earned. Were he alive today, he would revise this advice to fit these times by saying that a three dollars saved in United States Savings Bonds earn an extra dollar in 10 years.

SOCIETY EVENTS

ROBERT A. BROGAN TAKES MISSOURI GIRL AS BRIDE

Mr. and Mrs. Harry W. Morrison, Kidder, Mo., announce the marriage of their daughter, Evelyn, to Robert A. Brogan, son of Mr. and Mrs. John Brogan, of Antioch, Aug. 23 at St. Peter's rectory in Antioch.

ANNOUNCE ENGAGEMENT OF DAUGHTER

Mr. and Mrs. A. Pedersen of Pedersen's Bakery, announce the engagement of their daughter, Viola, to Mr. James Walsh, son of Mrs. Dan Walsh of Antioch. The wedding date will be announced at a later date.

HERMAN CUBBON HOME FROM HOSPITAL

Herman Cubbon returned home Sunday from St. Therese hospital, where he had been since May 14. Mr. Cubbon suffered a stroke in May and was removed to St. Therese hospital. He is very much improved and is able to visit with his friends.

DESSERT LUNCHEON AND CARD PARTY

The Lake Villa Royal Neighbors are sponsoring a public card party and dessert luncheon at one o'clock Wednesday, September 10, at the home of Frieda Rietzke at Indian Point with Lillian Frier as co-hostess.

Miss Coleen Ireland was honored guest at a bridal shower given by Miss Pat Schippmann Friday evening at the Lone Oak Inn. Miss Ireland received many useful and lovely gifts from the sixty guests who were present. Bunco was played during the evening and luncheon served later in the evening.

Pfe. Elmer Cobb, son of Mr. and Mrs. M. E. Cobb of Lake Marie, landed in New Jersey at Camp Kilmer two weeks ago. He flew home from New York arriving in Antioch Friday. After a thirty day furlough he will report at Chanute Field for further order. Pfe. Cobb joined the army in Feb. 1946.

Mr. and Mrs. Robert McCann and family, Mr. and Mrs. Kenneth Sheldon, all of Lake Villa, attended the Porter-Marrs wedding held at the Methodist church in Garden Prairie, Sunday. They also attended the reception at the home of the Porters.

The Past Matrons club were entertained at the home of Mrs. Richard Chapman at Indian Point Thursday evening.

Robert Lutterman, son of Dr. and Mrs. E. J. Lutterman left Tuesday for Booneville, Mo., where he will attend Kemper Junior College.

Miss Thelma Longley and Mae Setik attended Labor Day Rally at Soldier Field, Sept. 1, in Chicago.

Mr. and Mrs. Robert Wilton and sons, Robert, Jr., and Billie, spent last week vacationing in Northern Wisconsin and Michigan visiting Machinac Island.

Dr. and Mrs. Earl Hays attended the wedding of their niece Miss Jacquelyn Hatton at the Church of the Advent, 2900 Logan Blvd., Chicago, Thursday evening.

Girls to Elect Officers
The Order of Rainbow for Girls will elect officers in their regular meeting Monday. Installation will take place a short time later.

Veterans Have Year Yet To Apply for Leave Pay, But Can Get Cash Now

Veterans still have a full year to apply for terminal leave pay. Arthur G. Adams, Illinois Veterans Commission Service Officer in Lake County, announced today.

A new law enacted by Congress and signed by the President gives veterans or their dependents until Sept. 1, 1948 to make application. The law also gives an applicant the choice of cash payment or bonds maturing in five years.

The new law also authorizes the cashing of terminal leave bonds already issued. Banks and financial institutions empowered to cash postal savings stamps began cashing the bonds on Sept. 1.

Application blanks and information or assistance in filing for terminal leave is available at the Lake County office of the commission, located at American Legion Home, Waukegan, Illinois.

Mirror Cleaning

Special care to prevent water from running between mirror frames and the glass should be taken when washing them. Mirrors are cleaned best by wiping with a vinegar or ammonia-moistened cloth and drying with a soft, clean, lint-free cloth.

Early Veneers

The ancient Egyptians conserved their rare and beautiful woods by slicing them into thin veneers which they glued to more common woods of lesser beauty. These veneers were the ancestors of our modern all-purpose plywoods.

St. Ignatius' Opens Church School

St. Ignatius' church will open its Church school this Sunday. There will be four classes. Kindergarten, primary, junior and senior classes.

All children are welcome to attend regardless of their church affiliations.

The courses used this year are different than those used before. And if possible the Rev. E. William Strauser would like all parents to come with their children this first Sunday.

The lessons will follow modern teaching methods. (Work Book and individual expression.)

The courses are the same ones that are used by St. James church in New York (which has one of the largest schools in America.) They were written by Dr. B. I. Bell as supervisor, who is nationally known educator both in the religious and secular field.

If the parents can come with their children the first Sunday then they will be told how to help their children get the most of these very instructive lessons.

Choosing Coffee

Freshly roasted coffee is superior to any other kind. To get your money's worth of coffee flavor, choose a vacuum-packed brand unless you are absolutely sure that the other package is freshly roasted.

Muscle Shoals

The name Muscle Shoals for a section of Tennessee river reputedly was suggested by the muscular demand on Indians and early settlers in canoes bound upstream.

Drowning at Long Lake

Harry Heyl, 53, of 5501 N. Parkside ave., Chicago, drowned in Long Lake late Monday when his outboard motorboat capsized. His death brought to 10 the year's death from drownings in Lake county. Heyl was a stationary engineer at a Chicago school. His death occurred in the presence of his wife and daughter.

Eskimo Migration

The Eskimo probably migrated to North America from northeast Asia.

Beaver Teeth

The cutting teeth of beavers continue to grow throughout their lives.

SCHOOL SUPPLIES

HICKORY

Mr. and Mrs. R. C. Bishop and daughter, Miss Eloise, also Miss Grace Tillotson, of Kenosha, called at the E. W. King and H. A. Tillotson homes Saturday evening. Miss Eloise has just returned from a year in Japan as a Government Librarian.

Mrs. Gordon Wells and Lucille, also Mrs. Nettie Wells spent Monday afternoon of this week visiting Mr. and Mrs. Ed Gillings at Zion.

The Albert Belongia family moved Saturday to a farm near Racine to live and owned by Chris Paschen.

Mr. and Mrs. Edwin Speicher and daughter, Judith, of Zion, also Mrs. Manetta Speicher, of Cedar Falls, Ia., called on the Wm. D. Thompson family Saturday evening.

Mr. and Mrs. Wallace Ames and children, from Galesburg, Ill., are visiting at the home of their mother, Mrs. Henry Ames, and their brother and wife, Mr. and Mrs. Rod Ames.

Norman Edwards left on Saturday for Wayne, West Virginia. His nephews, George and Larry Edwards, who have spent the past month with their grandparents, Mr. and Mrs. Bert Edwards, returned to their home with him.

Mr. and Mrs. Rod Ames had their baby daughter, Ruth Anne, baptized Sunday at St. Ignatius church, Antioch. Mr. and Mrs. Emil Hallwas had their son baptized, Roger William.

Oliver Wells, of Burlington, spent Wednesday and Thursday at the Gordon Wells home. Everett Wells spent Friday, Saturday, Sunday and Monday at the Spencer Wells home near Burlington.

Mr. and Mrs. A. P. Wells, of Waukegan, were Sunday afternoon callers at the Earle Crawford home.

Mr. and Mrs. Rod Ames moved into their new home over the weekend. Miss Doris Edwards spent the weekend at the home of her brother, Harold Edwards, and family at Madison, Wis.

Mr. and Mrs. Omar Schmidt and children, Jane and David, also Mr. and Mrs. Robert Schneider and son, Dennis, from West Allis, Wis., called at the H. A. Tillotson home Saturday afternoon.

Mrs. Gordon Wells and children spent Friday in Kenosha.

Our school opens on Wednesday with Mrs. Elmer Baethke, of Antioch, as teacher.

Gordon Wells and sons, Gordon, Jr., and John, spent Sunday at the Elkhorn fair.

Mr. and Mrs. George McNeil and son, Terry, of Kenosha, spent Monday morning at the Fred Leable home. George McNeil, a member of the Red Sox ball team, of Kenosha, has returned recently from 10 days spent in Oklahoma and Kansas, where he played in the Wisconsin State Tournament.

Mr. and Mrs. Eugene McDougall and daughter, Betty, from Hatches Corners, Mrs. Curtis Wells and Mr. and Mrs. Andy Magiera and son, Paul, drove to Chicago last Wednesday, Aug. 27, and took the boat trip across Lake Michigan to St. Joe and Benton Harbor, Mich.

Mr. and Mrs. S. J. Handley returned home Thursday night from a visit with their daughter, Mrs. Harrie Kilstrom, and family in Hamburg, N. Y.

Weaving Varies

Weavers of rugs in the orient have quaint customs. In the Kerman district of Persia (Iran) the weavers fringe both ends of their rugs. But in the Sultanabad section, the weavers start a rug with selva and fringe off only one end when completed.

Tiniest Light

The world's tiniest bedside light is the 1/25th watt indicator on the new two-control automatic electric blanket, which reminds the user to "turn off the blanket" during the day. It is too small to be bothersome at night.

Acquire Forests

The U. S. Forest service announces that 52,637 acres of land are being bought for addition to the national forests in the north central region. One hundred ninety-nine tracts of land are involved in the first acquisition program since the outbreak of World War II.

Safety Device

Homemakers who use a refrigerator, iron, toaster and electric heater at the same time on one circuit have no one but themselves to blame if a fuse is blown. If the fuse weren't there, the result would be fire.

Biological Warfare

Biological warfare is not a new military maneuver. It is recorded that in the French and Indian wars (1762) smallpox was intentionally spread among the Indian tribes of Ohio.

Frozen Vegetables

Most frozen vegetables can be cooked without thawing. Greens, asparagus and broccoli cook more evenly if thawed just enough to separate the leaves or stalks. If corn is not completely thawed, the cob is not heated by the time the corn is cooked and will cool the corn.

First to Ride Train

Andrew Jackson was the first president of the United States to ride on a steam railroad.

STAY OFF THE DETOUR

Designs Pumps

Low-cut, short-vamped pumps, called d'Orsay pumps, were designed more than 100 years ago by Alfred Guillaume Gabriel, Count d'Orsay, a French painter and sculptor.

Safety Hint

To make a razor blade a safe instrument for ripping seams, place one edge of the blade in a slit in a large cork. The cork serves as a handle and also is useful in protecting the fingers.

AUCTION

On Buckley Rd., 5 miles south of Gurnee at end of High School Rd., 4 miles northeast of Libertyville, 3 miles west of U. S. Naval Station, 1 1/2 miles west of 42A, 3 miles east of Hwy. 21 (Milwaukee Ave.), on

SUNDAY, SEPT. 21, AT 1:30 P. M. (DST)

Watch for Auction Arrow on Buckley Rd., at the Oak Grove School, as this is back in the field.

Removes Fish Odor
To remove the odor of fish from the skillet boil in the skillet a solution of water and vinegar for a few minutes.

Sprinkling Clothes
Use a whisk broom, kept for the purpose, and hot water to sprinkle clothes before ironing. They will be more evenly dampened than when sprinkled by hand.

Tight Vessels
Greeks and Romans were the first to find air-tight seals for vessels, plugging the mouths with cork and covering them with compounds of pitch, chalk and oil.

Scouring Recipe
A good scouring for boards and tables is this: Work into a paste a half pound of sand, half a pound of soft soap and a quarter of a pound of lime. Put it on the scrubbing brush instead of soap, then wash the wood with plenty of clean water.

Artificial Bristle
Casein from waste skim milk is the basis for a successful artificial bristle, developed after four years of wartime research. The artificial bristle is resistant to oils and organic solvents, hence especially suitable for paint brushes.

Nutritious, Too
Breast of chicken, usually eaten for the fun of it, now can be eaten for the B vitamins it contains. Studies indicate it is a good source of niacin.

Veneer Furniture
Housewives may prevent veneered furniture from becoming too dry by oiling it with warm linseed oil. Let the wood absorb as much of the oil as possible and wipe off any surplus with a cloth.

MILLBURN

Mr. and Mrs. Ray Boller spent the weekend from Friday until Tuesday with Mr. and Mrs. Ralph McGuire at Rhinelander, Wis.

Mr. and Mrs. Don Truax and Mr. and Mrs. Elmer Hauser are having a week's auto trip to Colorado and other interesting spots in the west.

The fourth annual Lake County Camporee for Congregational Young people is to be held at Hastings Camp Friday, Saturday and Sunday with the Congregational ministers of Lake County in charge. These young people will attend the church service Sunday when Rev. L. H. Messersmith will speak on "The Time is Short."

The Millburn Men's club is sponsoring a sound movie to be shown in the church basement Monday evening, Sept. 8. The main feature will be the 1946 World's Series. A nominal charge of 30c for adults and 15c for children will be made, which includes the federal tax.

The Ladies Aid Society will meet at the church Thursday afternoon at 3 o'clock for program and business meeting. Cafeteria supper will be served from 5 o'clock on by the Sept. committee.

Mr. and Mrs. Henry Dekker and family and Mrs. Mary Dekker, of West Pullman, spent Thursday afternoon with the latter's sister, Mrs. J. Kaluf.

Mr. and Mrs. Orville Hairrell had a vacation trip through the Great Smoky Mts., from Monday to Friday.

Mr. and Mrs. Harley Clark and family and the Earl Turnpaugh family, of Kansasville, Wis., attended a family reunion and picnic at Hoopston, Ill., Sunday.

Mr. and Mrs. Clayton Engh spent the weekend with the former's sister and family, the Richard DuSault's, in Monroe, Mich. Mrs. Theodore Engh, who has spent several weeks with her daughter, returned home with them.

Mr. and Mrs. Eric Anderson and Rebecca and Mrs. Anna Baumen left Wednesday for Mills City, Mont.,

where Mr. Anderson was called on business.

Mr. and Mrs. Fred Tebbins and son, Wendell, Mr. and Mrs. Everett Truax and daughters and Mr. and Mrs. Henry Randall, of Waukegan, and Mrs. Gladys Goff, of Lake Hamilton, Fla., were supper guests at the home of Mrs. Ida Truax Monday evening.

Mr. and Mrs. Michael Tillich and son, Michael, of Chicago, spent the weekend at the Peter Tillich home.

Kenneth Hellstern, of Chicago, who had spent the past week with his grandparents, returned home with Mr. and Mrs. Michael Tillich.

Bob Hairrell, Don Lee Holem and Bob Thompson, of Lake Villa, spent the weekend at the Wisconsin Dells.

Mr. and Mrs. Leslie Bonner and Mr. and Mrs. Howard Petty, of Urbana, Ill., are enjoying a motor trip around Lake Michigan this week.

A. B. McDonald spent Friday with his son, Phillip, and family at Rockford.

More Juice
Lemons which have been soaked in hot water a few minutes prior to using will produce much more juice than those not so treated.

Production Triples
Vegetable production in the United States has more than tripled since 1920.

Car Vacuum
Vacuum cleaner, small enough to be kept in the glove compartment of an automobile, operates off the engine manifold vacuum when the car engine is run at idling speed. Connections are long enough to permit use of the cleaner in any part of the car's interior.

Transit Leader
Atlanta, Ga., boasts the world's first air-conditioned city transit system. Thirty trackless trolley coaches, equipped with the latest in cooling devices, were placed in service originally while the system eventually will include 100 coaches.

Higher Level
The level of the Gulf of Mexico actually is about eight inches higher than that of the outer Atlantic.

It's Humming Here
While there are 500 species of humming birds, not a single member is found in any part of the Old world. All are residents of the Western hemisphere.

He's a Rat
The common house rat is a native of southern Asia.

Trees Transpire
Trees transpire or give off water much as people perspire. Scientists have estimated that a big oak may transpire as much as 150 gallons of water during a single hot day.

Tile in Ancient Times
Tile was used on dwellings and temples in Italy before the days of great Roman architecture.

Hastens Ironing
Clothes that need sprinkling will be ready for ironing quicker if you do it with warm water.

It's worth
your while . . .
to travel a little further
for good food at the

AntiochReplace **FRAYED** Cords NOW!

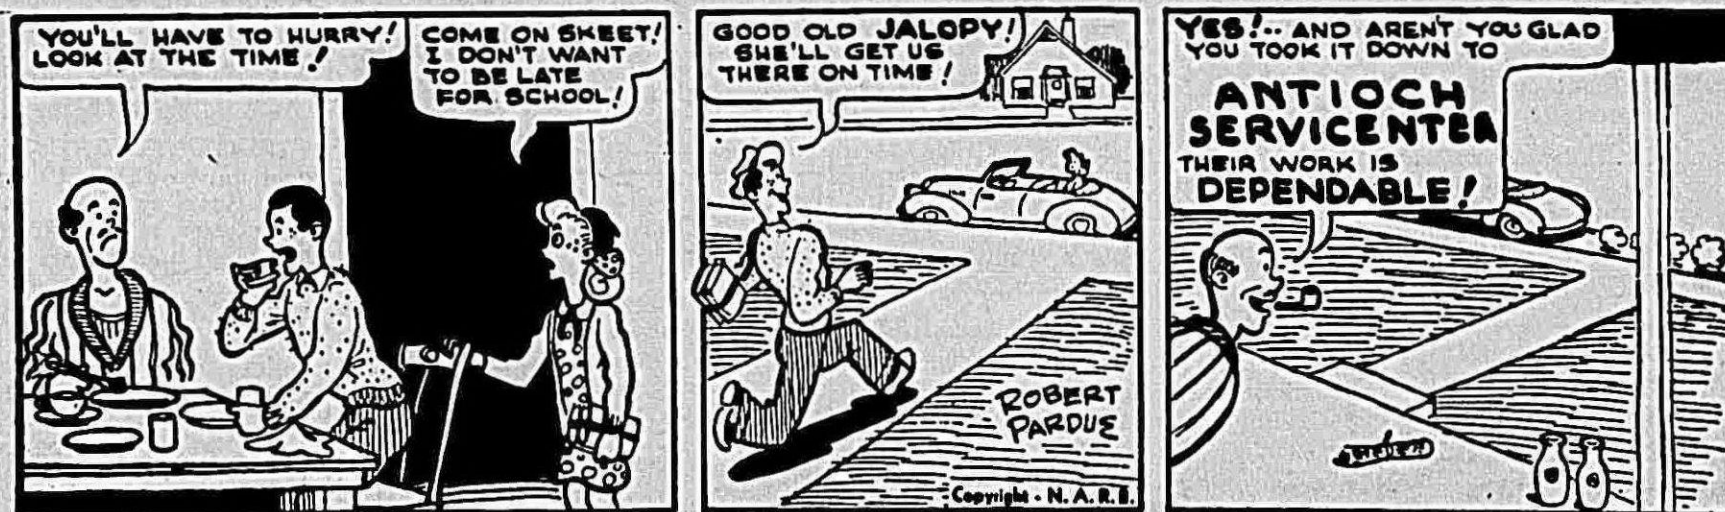

Puppies aren't the only ones who can harm themselves with worn-out electric cords. The entire family, from infants to adults, are endangered by worn-out wiring.

Exposed wires are often the cause of blown fuses, wasted electricity and short circuits. Check your home for this common hazard and eliminate it.

Safe, adequate wiring is again possible after wartime shortages.

You no longer have to "get by" with makeshift, inferior wiring—replace every frayed cord with a new one today. Educate each member of the family in this elementary safety rule—never yank an electric cord—handle only the plug when disconnecting from a wall socket.

1,011 Rent Violations

Send Couple to Prison

NEW YORK.—Pleading guilty to charges citing 1,011 instances of rent ceilings violations between last March and October, two Harlem real estate men were sentenced to serve six months in prison.

Federal Judge John W. Clancy also fined James Smith, 70, \$5,000 and his son, Raymond Smith, 29, \$1,000.

Federal Atty. Silvio Molloy asserted that they crowded as many as five persons into rooming house rooms for which they charged \$5 to \$11.50 a week.

Clerk Pleads Guilty To \$780,000 Theft

Lived Luxuriously and Kept Two Private Yachts.

NEW YORK.—William Arthur Nickel, 564-a-week clerk who lived luxuriously and kept two yachts while he embezzled \$780,000 from his employer, pleaded guilty as he went on trial with two of his three co-defendants.

Nickel, who apparently will be chief state's witness in the huge Mergenthaler Linotype company swindle, entered his plea to a 202-count indictment charging grand larceny and forgery.

The 48-year-old former Mergenthaler employee, whose extravagance failed to arouse suspicion until a fellow employee discovered fraudulent entries in his books, was arrested last October in a Florida hotel.

Nickel, who had fled to Detroit, Chicago and Florida when he recognized that his accounts were under scrutiny, talked freely after his arrest and implicated three others in the complicated plot.

Julius Lobel, alias Jimmy Collins, a Broadway figure who has been at liberty under \$85,000 bail, and Irving Cohen, 45, known as "Izzy the Eel," are co-defendants in the swindle trial.

A fourth co-defendant, Isidore Rappaport, 55, president of the Ultima Optical Instrument company, was granted a separate trial because he and his firm were named in only 41 out of nearly 500 counts in the indictment.

Rappaport, a war sub-contractor for the linotype firm, was said by Nickel to have master-minded the plot in which fraudulent checks made out supposedly in payment of Mergenthaler bills, escaped company detection. Rappaport, however, was said to have been ousted in favor of Collins later in the plot.

Commonplace Pump Termed Most Widely Used Machine

PHILADELPHIA.—With only 29 per cent of the nation's farms equipped with the most universally used machine in the country—the commonplace pump—the remaining 71 per cent are rapidly becoming an important market for this mechanism which outnumbers the automobile, telephone and refrigerator combined.

Terming the pump the "unsung Cinderella of the machine family," Richard H. DeMott, vice president of SKF Industries, Inc., in an industrial report said that of the country's 5,800,000 farms, only 1,679,000 are equipped with pumps for running water.

He estimated that the national "pump population" now tops 100 million, constituting one of the most important uses for ball and roller bearings. He compared the pump total with 34,000,000 automobiles, 19,792,000 refrigerators and 27,800,000 telephones reported in use at the end of 1946, pointing out that each motor vehicle uses at least one form of pump.

Body of Harvard Athlete Is Found Floating in Lagoon

BOSTON.—The body of Sylvester Gardiner, 22-year-old Harvard university athlete and World War II veteran, was found floating in the Charles river basin lagoon.

Positive identification was made by his father, former Gov. William F. Gardiner of Maine.

Medical Examiner William J. Brickley said a brown overcoat and shoe skates found on the body indicated that the young athlete had been accidentally drowned while skating at night.

Caesarian Operation Saves Baby After Mother Dies

PORTLAND, ORE.—A healthy girl was delivered by Caesarian operation three minutes after death of the mother, Mrs. Mildred Wickstrand, 31, from pneumonia in a hospital here.

The infant, born a month premature and weighing 6 pounds, 11 ounces, was placed in an incubator and was thriving, the hospital said.

Youth Stabs to Death Girl Friend of Granddad

NEW YORK.—James Quinn, 21, was held for fatally stabbing his 74-year-old grandfather's pajama-clad girl friend.

The victim was Margaret Dowling, 42, a telephone worker. Quinn's wife said her husband stabbed Miss Dowling after he accused her of stealing his money from a bureau drawer.

Larger Farms
Today the average farm in the United States is 50 acres larger than it was a quarter of a century ago. More than 50 per cent of the farm land in the country is in farms of 500 acres or more.
